

VOL. XXVI

SOUTH SAN FRANCISCO, SAN MATEO COUNTY, CAL., FRIDAY, FEBRUARY 28, 1919.

NO. 9

ENGINEER SCALDED TO DEATH IN TRAIN WRECK

Southern Pacific Freight Train Is Derailed and Ditched at Old Leipsic Station; Fireman Badly Hurt

Frank Burge, an engineer of 852 Guerrero street, San Francisco, was killed, and Walter Both, a fireman of 3342 West Twenty-fifth street, San Francisco, suffered a broken collarbone and severe burns about the face and neck when a southbound Southern Pacific freight train was derailed on Thursday afternoon at 4 o'clock, about 200 feet from the old Leipsic crossing, now South San Francisco junction. Although the engine turned turtle, the fireman managed to leap from the cab, but the engineer was imprisoned and scalded to death before aid could reach him. The dead engine driver leaves a wife and two children.

The train was traveling at a high rate of speed along the little-used stretch of road, which is part of the Southern Pacific Company's Valencia street line, when the engine left the track, turned turtle, whipped the tender a distance of twenty-five feet into the ditch and piled up seven boxcars and a tank car into a mass of smashed wreckage and twisted steel.

Four of the cars were torn completely from their trucks and for nearly 100 feet tracks and ties were

ripped from the roadbed until trace of their original position was almost entirely obliterated.

T. M. Ryan, the local electrician, accompanied by a friend, was waiting the arrival of the northbound San Mateo electric car when the wreck occurred. They made an attempt to reach and shut off the pet cocks of the engine in an attempt to save the imprisoned engineer, but the blinding hot steam prevented and his body was not extricated until the arrival of the wrecking crew, accompanied by doctors and nurses. The injured fireman was taken to the South San Francisco Hospital, where it is reported he is entirely out of danger, and the body of the dead engineer was removed to the morgue at Daly City. There is no confirmation of the report that the brakeman of the train was injured.

It is believed that the wreck was caused by a spread rail due to undermining of the roadbed.

The track parallels a ditch which has been filled with water since the recent storms. Three years in jail is the penalty for the felony with which Venturini is accused.

Up to late Friday morning the wreckage had not been entirely removed.

MADELINE EVERNS SPONSORS VESSEL

WEST ALCOX SIXTH STEAMER LAUNCHED AT SCHAW-BATCHER YARD ON WEDNESDAY.

At 8:45 a. m. Wednesday the West Alcox, the sixth 8800-ton steel vessel to take the water at the Schaw-Batcher shipyard here, was successfully launched, while 2000 employees cheered in unison to the splash of the vessel in the waters of the channel.

Miss Madeline Evers, daughter of Frank Evers, surveyor for the American Bureau of Shipping, was sponsor for the vessel. The vessel's name was selected by Mrs. Woodrow Wilson.

BELGIAN RELIEF COMMITTEE WILL PLACE STANDS HERE

Mrs. W. J. Martin has been appointed South San Francisco chairman of the Belgian Relief Society. The county organization has its headquarters in Redwood City and will conduct a permanent campaign for the relief of the stricken country. The present plans include the placing of "milk bottle" booths—stands in which the public can deposit donations.

A. C. KLEEMEYER GIVEN TITLE OF PRINCIPAL

At a meeting of the Board of School Trustees on Tuesday afternoon, A. C. Kleemeyer was appointed principal of the grammar school. Mr. Kleemeyer was formerly vice-principal.

NEW SUPERINTENDENT AT SOUTH S. F. POSTOFFICE

F. W. Sink, former assistant, has been promoted to the superintendency of the postoffice here, to succeed former Superintendent Cashman, who has been transferred to the superintendency of Station E of the San Francisco postoffice at Third and Townsend streets.

SURPRISE ATTACK ON CRAP GAME FAILURE

BULLETS ONLY ADD TO SPEED OF YOUTHS WHO OUTRUN OFFICER McGRAW.

Monday night at 10:30, after he had escorted a prisoner to the local "hoos gow" for a night's lodging, Officer McGraw came upon a crowd of boys assiduously and interestedly engaged in a game of "African billiards," better known as "craps."

McGraw's surprise attack failed and the youths escaped with both the stakes and their skins intact, notwithstanding that McGraw fired several shots at them after they failed to heed his command to stop.

CHANGE IN MANAGEMENT OF METROPOLITAN HOTEL

Mrs. Alice B. McCuen has resigned the management of the Metropolitan Hotel, of which she has been in charge since September, 1917, and will take a much-needed rest. The patrons of the local hostelry will miss her cheerful, good-natured presence, for many of the boys have come to look to her as a mother.

Mrs. E. M. Wooley will succeed Mrs. McCuen in the management of the hotel and it is probable that Mr. Wooley, who is employed in a local factory, will give up his position and assist in the hotel management.

ASKS \$30 FOR FAILURE TO RETURN LAUNDRY WORK

Mrs. P. Sopisti swore to a complaint in Recorder Dowd's court against Henry Speros, proprietor of the French Laundry, for \$30 damages for fancy work which she claims was not returned by the laundry.

Several witnesses gave evidence in the case. Recorder Dowd will render a decision on Monday morning at 10 o'clock.

ACCUSED MAN CAUGHT AT DOCK

DELINO VENTURINI APPREHENDED WHEN ABOUT TO BOARD BOAT FOR ITALY, IS CLAIM.

Delino Venturini, against whom a complaint was filed in Recorder Dowd's court by Mrs. Clementina Baldi on a charge of seduction with a promise to marry, was apprehended by the San Francisco police on Wednesday when, it is stated, he was about to take a steamer for Italy.

Chief Conrad had notified the San Francisco authorities that Venturini was wanted here, and following the telephone advice that Venturini had been arrested and was in the city prison at San Francisco, Chief Conrad brought him back to this city for arraignment before Recorder Dowd.

Chief Conrad and Deputy Truax took the accused man to the county jail at Redwood City. He was later released on \$500 cash bail, furnished by a fellow employee of Venturini's at the Schaw-Batcher shipyard.

Three years in jail is the penalty for the felony with which Venturini is accused.

RED CROSS SHOP RECEIPTS \$1958.41

SPLENDID SUM NETTED FOR RELIEF WORK BY LOCAL WOMEN WORKERS.

A financial statement of the receipts of the Red Cross Shop has been compiled by Mrs. W. H. Coffinberry Jr., who has devoted her time as secretary and treasurer since its opening last June. One thousand nine hundred and fifty-eight dollars and forty-one cents were the total receipts, a showing which reflects credit on the women who worked assiduously for the success of the shop since its initial organization by Mrs. Brady Wolfe, who was succeeded by Mrs. E. C. Peck last September.

The attractive building in which the shop was housed was erected entirely by donations of public-spirited citizens. W. H. Dinning contributed the lumber, and the labor for its construction was secured through the co-operation of J. O. Snyder, superintendent of the Western Meat Company. The lot on which the building stood was supplied rent free by Andrew Hynding, the W. P. Fuller Company donated the paint, W. L. Hickey contributed the plumbing supplies and labor, and T. M. Ryan installed the lighting fixtures gratis.

One of the shop's most energetic workers was Mrs. Winterhalter, who not only gave freely of her services but was also one of the heaviest donors of articles which were placed on sale in the shop. Mrs. W. J. Martin was a large contributor and Mrs. Stephen Nyland worked faithfully in the shop on the days it was in operation. To the above enumerated much of the credit is due, but the management of the shop want to publicly express their thanks to all who contributed in any way to its success.

In addition to the cash receipts which the shop has turned over to the Red Cross Society, nine cases of clothing were collected locally and shipped to Belgium for the relief of that stricken country.

DID FORD BUY TANFORAN TRACK?

PERSISTENT RUMOR AGAIN CIRCULATED THAT EASTERN MAGNATE WILL BUILD ASSEMBLING PLANT.

Considerable credence is now given the rumor, started here several months ago, that the title to Tanforan Park has been transferred to Henry Ford, who contemplates using the site for an immense assembling plant for Fordson farm tractors.

Although no confirmation of the report can be secured from the Anglo & London Paris Bank, which recently foreclosed on the property, nor is there any record of the filing of the deed to the property in the name of Ford, information from other sources indicates that the transfer has actually been made.

Thomas Williams and his associates some time ago gave a deed of trust to the bank for a loan on the property, and foreclosure of this deed created considerable comment in San Francisco financial circles.

When work on tearing down the old grandstand, stables and other construction work was commenced at the park following the foreclosure, the old rumor that control of the property had passed to Henry Ford gained greater strength.

It is reported that Henry Ford was in San Francisco and personally consummated the deal.

DAINTY FEMININE APPAREL PRIZE AT CHURCH PARTY

A cedar "hope chest," overflowing with dainty articles of feminine wearing apparel, French lingerie and other finery of which mere male editors are not supposed to have too intimate descriptive knowledge, but which are dear to feminine hearts, is to be disposed of as a prize at the card party and dance at All Souls' Church hall on Saturday evening.

N. A. Becker, as "auctioneer," will wheedle the speculative coins from the ladies and their swains who aspire to ownership of the chest and its contents.

Dancing, music and other entertainment will be included in the evening's program in addition to whist.

The proceeds of the party will be applied to payment of the debt on All Souls' Church.

LOCAL CHILDREN TO GIVE PIANO RECITAL IN S. F.

Little "Jack" Peck and Althea Spangler will give a joint piano recital at the Manning studio, San Francisco, on Friday evening.

The talented children are pupils of Professor Manning, who has taken a keen interest in the development of their artistry.

THATCHER IN SMASH UP.

C. Thatcher's automobile was badly damaged Wednesday in a collision on the San Bruno road, near the Prest-O-Lite works.

No one was injured in the smash up.

SHIPYARD WORKER CHARGED WITH FAILURE TO PROVIDE

Deputy Sheriff T. C. McGovern yesterday afternoon served a warrant for the arrest of Roy Francis, a packer at the Schaw-Batcher shipyards, who is wanted in Oakland on a charge of failure to provide.

AUTO HITS MAN; BREAKS HIS LEG

JOSEPH SPAINE KNOCKED DOWN BY CAR AT GRAND AND LINDEN AVENUES.

Joseph Spaine, an employee of the Schaw-Batcher shipyard and a resident of the Alpine Hotel, is suffering with a broken leg which he sustained last Saturday when struck with an automobile driven by W. Sheehan.

The accident happened about 9:30 p. m. Spaine, with several other men, was standing in the roadway at the intersection of Grand and Linden avenues and failed to notice the approaching car. It is stated by onlookers that he seemed to step directly into its path, too late for the driver of the car to come to a stop.

The injured man was taken to the South San Francisco Hospital, where it was reported on Friday that his condition was not serious.

BRILLIANT WOMAN TO ADDRESS LOCAL CLUB

MISS MOSGROVE, GOVERNMENT REPRESENTATIVE, TO SPEAK AT MARTIN HOME NEXT THURSDAY.

Miss Mosgrove, government agent for the housing and Americanization of foreigners, will deliver an address before the Woman's Club at the Martin home, Thursday, March 6, at 2 p. m. Miss Haley of the San Mateo County Relief Committee, will also make a few remarks.

Miss Mosgrove, who, following a luncheon at the Martin home, spent Tuesday afternoon visiting the South San Francisco factories, surpassed the reputation with which her coming was heralded. She is a woman who has traveled not alone extensively but with intelligence and observation, and these attributes, coupled with personal charm, assure her hearers an interesting and entertaining address on Thursday next.

The United States government has made broad and extensive plans for the Americanization of its alien residents, plans which include the inculcation of high Americanism and the principles of democracy. There will be no paternalism or patronizing, but only an education along the lines of the value of citizenship and the development of patriotism.

It is to this deserving work which Miss Mosgrove will devote herself in this district, a work in which she will have the hearty co-operation of the civic bodies of the county.

SOCIAL SERVICE COMMISSION ASKS CLOTHING DONATIONS

The San Mateo Social Service Commission asks donations of cast-off clothing, shoes, old furniture or other household utensils or articles of wearing apparel which can be used to ameliorate the condition of the destitute families of San Mateo county.

The women workers of the commission report a crying need for these articles, which will be called for if the donors will notify Miss Beebe, secretary of the Social Service Commission, at the court house, Redwood City.

Buy those War Saving Stamps.

SAN BRUNO NOTES

The illustrated lecture given Friday night in the M. E. Church was on general foreign topics of special interest. These lectures will be given in a series of six, one a week, on Friday evenings, with the exception of next week, when it will be given on Wednesday evening. All succeeding lectures will be given on Friday nights. The subject for next Wednesday night will be "China," with illustrations. The series is a part of the program of the great centenary movement now being made by the Methodist Episcopal Church throughout the world. There will be no admission fee. Everybody is invited to attend the lectures.

A meeting was held at the Little Belgian Shop on Thursday relative to the organizing of a parent teachers' association in San Bruno. A general meeting was set for March 11 at Edgemont School, when the organization will be effected and officers elected. All mothers of school children are invited to be present.

Mr. and Mrs. Eddy gave a very delightful party last Saturday evening. The guests filled four tables at whist, after which they were entertained with music, the host playing the violin, Horace Bewley the cornet, with Mrs. Blake at the piano. Refreshments were served.

The funeral of J. A. McGrath was held on Monday at St. Bruno's Church; thence for interment to Holy Cross Cemetery. Mr. McGrath was 69 years of age. He leaves two daughters, Mrs. Lynn of Nevada and Mrs. F. C. Grisez of San Bruno.

Mrs. M. T. Canning gave a whist party last Saturday evening. The favors and prizes were in keeping with the day. The evening was most enjoyably spent, as 2 o'clock, the hour of leaving, testified.

Mr. and Mrs. Clifford Smith motored to Los Banos Saturday for a weekend visit with their son, Leonard, who is in the employ of the Shell Oil Company.

Mrs. E. Tose and Miss Marguerite Thompson of Redonda Island, B. C., are visiting at the home of Mrs. Tose's son, T. Tose, Belle Air Park.

The Y. M. I. will give a dance and social at Carpenters' Hall Saturday night for the benefit of St. Bruno's Church.

Amol Wackerman has been confined to his home by illness for several days.

F. Miller, who has been visiting at the home of H. Spaulding, left Thursday morning for Oregon.

AN AMERICAN-IRISH NIGHT.

Do you love the music of the voices of good singers, and skillful, sprightly dancing of the Gaelic style, and the monologist's humorous tales and ballads? Of course you do.

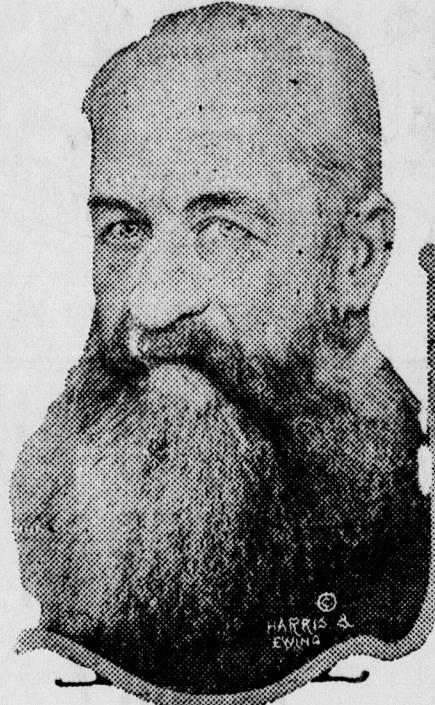

Then come to the Novelty Theatre, San Bruno, on Saturday evening, March 15, when St. Bruno's parish will present the following artists for an evening's delightful entertainment:

Elmer Gallagher, famed monologist; the O'Neil sisters and pupils, classic Gaelic dancers; Theodore Isaacs, veteran vaudeville actor; Charles Bulotti, noted American-Italian concert singer, one of America's greatest tenors; Robert Valentine, San Bruno's popular baritone; Edward Healey, comedian; Miss Ursula Finn, soprano, and others who will help to banish the blues and the gromches for many a day.

"The night shall be filled with music
And the cares that infest the day,
Shall fold their tents, like the Arabs,
And as silently steal away."

The place: Novelty Theatre, San Bruno, opposite Uncle Tom's Cabin. The time: Saturday evening, March 15, at 8:30. Followed by social in Green's Hall.

Word has been received here of the death of the father of L. H. Traeger, who is president of the Board of Trustees of San Bruno. The deceased leaves a widow, two sons and a daughter.

PRINCE GEORGE LVOFF

Prince George Lvoff is chairman of the delegation that represents Russia in the conferences of the peace delegates.

The dance which was announced for Saturday, March 8, to be given by the Lomita Park Hall Association at Lomita Park Hall, has been cancelled. Through some oversight the committee in charge failed to remember the proposed date would fall within the Lenten season, and have decided now to postpone the affair.

WHAT WILL HAPPEN INCOME TAX DODGERS**HERE IS CONCRETE INFORMATION TO HELP YOU FIGURE YOUR DEBT TO UNCLE SAM.**

Work on the collection of \$6,000,000,000 has been begun by the Bureau of Internal Revenue. This is the estimated yield of the new revenue bill. The income tax provisions of the act reach the pocketbook of every single person in the United States whose net income for 1918 was \$1000 or more, and of every married person whose net income was \$2000 or more. Persons whose net income equalled or exceeded those amounts, according to their marital status, must file a return of income with the collector of internal revenue for the district in which they live on or before March 15.

Here is what will happen to them if they don't; for failure to file a return on time, a fine of not more than \$1000 and an additional assessment of 25 per cent of the amount of tax due.

For "wilful refusing" to make a return on time, a fine not exceeding \$10,000, or not exceeding one year's imprisonment, or both.

For making a false or fraudulent return, a fine of not more than \$10,000, or imprisonment for not more than one year, or both, together with an additional assessment of 50 per cent of the amount of tax levied.

For failure to pay the tax on time, a fine of not more than \$1000 and an additional assessment of 5 per cent of tax unpaid, plus 1 per cent interest for each month during which it remains unpaid.

In addition to the \$1000 and \$2000 personal exemptions, taxpayers are allowed an exemption of \$200 for each person dependent upon them for chief support if such person is under 18 years of age and incapable of self-support. Under the 1917 act, this exemption was allowed only for each dependent "child." The head of a family—one who supports one or more persons closely connected with him by blood relationship, relationship by marriage, or by adoption—is entitled to all exemptions allowed by a married person.

The normal rate of tax under the new act is 6 per cent of the first \$1000 of net income above the exemptions, and 12 per cent of the net income in excess of \$4000. Incomes in excess of \$5000 are subject also to a surtax ranging from 1 per cent of the amount of the net income between \$5000 and \$6000 to 65 per cent of the net income above \$1,000,000.

Payment of the tax may be made in full at the time of filing return or in four installments, on or before March 15, on or before June 15, on or before

HIGH SCHOOL NOTES

(By Raymond Spangler.)

San Mateo "mopped up" last Friday night, when she got away with 42 points against the 22 of the local basketball team. The big hikers sure walked away with it. However, we'll do better next time. An outside team played the boys Thursday and were beaten 54 to 15. The Atalanta Club will play the girls' team next Tuesday.

The dance at the high school auditorium will be the only high school entertainment until after Lent.

September 15, and on or before December 15.

Revenue officers will visit every county in the United States to aid taxpayers in making out their returns. The date of their arrival and the location of their offices may be ascertained by inquiring at offices of collectors of internal revenue, post offices and banks. Failure to see these officers, however, does not relieve the taxpayer of his obligation to file his return and pay his tax within the time specified by law. In this case taxpayers may seek the government, not the government the taxpayer.

Don't Smoke Heavy Cigars**SWITCH TO THE V. & T. SPECIAL*****It Never Gets Your Nerves***

**A LECTURE
ON
Christian Science**

By

PAUL STARK SEELEY, C. S.

Member of the Board of Lectureship
of The Mother Church, The First
Church of Christ, Scientist,
in Boston, Mass.

In introducing Paul Stark Seeley at the Royal Theatre on Sunday afternoon last, J. C. McDonald said:

Friends: Christian Science is a religion of right thinking. It is a practical religion, for it not only heals disease and sin, but is a help and guide in all the affairs and problems of life. We are here to-day that we may learn more of the wonderful truth it teaches. It is for such a purpose that a Board of Lectureship was established by The Mother Church, The First Church of Christ, Scientist, of Boston, Mass. It gives me great pleasure to introduce one of this Board of Lectureship, Mr. Paul Stark Seeley, C. S., of Portland, Ore., who will now address you:

CHRISTIAN SCIENCE DEFINED.

With the assurance of that which has been tried and proven Christian Science presents to the world, not a new denominational dogma, but the eternal Truth about God, creation, and man based on reason, logic, and demonstration. It asserts that an ever-operative law of good, which is superior to every phase of evil, exists, that this law may be understood and used by man to overcome every evil condition with which he may be confronted.

Christian Science has been defined by Mrs. Eddy in her work entitled *Rudimental Divine Science*, page one, "As the law of God, the law of good, interpreting and demonstrating the divine Principle and rule of universal harmony." Universal harmony is surely what the world is desiring, what you and I want in our daily life and all its relationships, for universal harmony excludes all evil, discord, sickness, and woe. Christian Science presents, interprets, and demonstrates this law of good so that all who will may presently enjoy its unlimited blessing.

CONSCIOUSNESS AND BEING.

Whatever may be our shade of religious thought we can readily agree that we are, that is that we exist and have being. Life is a fact to us because we think and have consciousness. Our consciousness is our life realm.

Since we can all agree that we are, that is that we have consciousness, let us next consider what is the origin and cause of man's consciousness. An answer to this important question must be an answer to the question, What is the origin of man? Man and his consciousness are one.

Reason tells us that the cause of man must be intelligent, that intelligence indeed must be its primary quality. A moment's consideration shows us that intelligence is found only in Mind, is the native substance and essence of Mind. Indeed Mind and intelligence are inseparable, synonymous; and it is therefore intelligence, or Mind, that Christian Science accepts as the rational and primal cause of man. Wisdom of course characterizes intelligence or Mind and its entire expression, or creation. This statement leads us to see that goodness, unity, and harmony—the expression of wisdom—must characterize Mind and its expression. Evil, discord, and distress betray absence of wisdom or entire unrelatedness to real Mind or intelligence. Erring human thought is not real intelligence, and bears no relationship to God.

MAN THE EXPRESSION OF GOD

If God be divine intelligence or the altogether good Mind what is the true status of man? We all know that Mind is manifest only through its ideas. Therefore, the true status of man, the creature of intelligence, is the idea of Mind, the individual expression of God, the off-spring of intelligence, or the son of God, as the Bible puts it.

The real man is not a physical organism that like to a jack-in-the-box appears and disappears. He is the creature of Mind. Matter is Mind's opposite, never its partner nor medium. Man does not live because of matter but in spite of it. Matter is not the creator, destroyer, or arbiter of his being. Man does not live by sufferance of evil but by decree of God.

"Ye are the temple," that is, the consciousness or expression, "of the living God" said Paul. You and I and all ideas of life are the only agency of divine expression. We cannot change nor abandon our function nor relinquish our responsibility.

MATTER OPPOSED TO SPIRIT.

Looking into the consciousness of mortal man we find a very different concept of God, creation, and man than that which we have been considering. This concept makes matter to be cause from which man seems to be evolved by a material mind which operates through matter. Man is a creature of flesh, sinful, corrupt and perishable instead of the expression of God, perfect, pure and eternal. In this corrupt, material concept is found division, strife, sickness, grief, fear, injustice and hell. This mortal sense of creation which makes matter its god would subordinate divine intelligence to mortal ignorance, supplant all-powerful good with all-mighty evil; supersede the ever-presence of good which is heaven with the ever-presence of evil which is hell. Which of these concepts of creation is true, the material or the spiritual? Both cannot be for each is the exact opposite of the other. "I have set before you," said the prophet, "life and death, blessing and cursing: therefore choose!" This is the demand that is pressing you and me and all mankind to-day, a demand that will never cease until we have chosen and chosen aright, aligned our thinking with the true cause, divine intelligence and its law.

UNFOLDMENT OF TRUTH

Since the first faint ray of spiritual Truth dawned in that state of individual consciousness which we call Adam, separating and condemning sin and evil as opposed to the moral law of good, there has been going on in the consciousness of mankind a gradual mental progression out of the darkness and grossness of materialism into the light of spiritual Truth.

This period of 6,000 years since Adam has been for mankind a period of gradual growth into a clearer concept of God, intelligence, and the operation of His laws in man and the universe. To-day we live in what students of the prophetic scriptures agree with practical unanimity are "the latter days," and Christian Science is here to interpret the "latter days" as the time when good shall be demonstrated to be supreme and eternal, and the end of the world of material belief to be at hand.

CHRIST JESUS' WORK

A little less than twenty centuries ago there was given to mankind through the consciousness of the man Christ Jesus a fuller and more complete revelation of the law of God and its operation in human affairs than had ever before been manifest to mortals. The sick were healed, the sorrowing comforted, the dead raised, all in direct contravention of the world's—that is matter's and the human mind's—sense of law, but in direct fulfillment of God's law, for said Jesus, "I am come not to destroy, but to fulfill."

For himself Christ Jesus claimed no supernatural power. In his works he saw but the natural operation of the law of God, intelligence, operating to maintain the integrity of its creation against the encroachments of evil belief.

The Truth taught by Christ Jesus based the Christian era and made manifest to men the fatherhood of God. His message was the Christ, even the knowledge of God and man, the only way by which man cometh to know the Father Mind. Knowing the hardness of the hearts of mortals, buried in materialism and false belief, he said to his followers, "I have yet many things to say unto you, but ye cannot hear them now," but foreseeing the time when the world would be ready to receive the full explanation and corroboration of his teachings he foretold that there should

come the Comforter who, he said, "shall teach you all things" and "guide you into all Truth." This full unfoldment of the knowledge of Mind, Truth—the Comforter—the Father-Mother God, came to Mary Baker Eddy in the year 1866 and has been given by her to the world in the Christian Science textbook, "Science and Health with Key to the Scriptures," whose leaves are, in the prophetic words of John, "for the healing of the nations."

MARY BAKER EDDY

It is but a small tribute to note here that in recent years Mrs. Eddy has received from her townspeople and neighbors at Concord, N. H., through the Mayor and City Council, official expression of their esteem and respect, that she has been designated by a governor of her state as that state's greatest woman, that Clara Barton, founder of the American Red Cross, whose work of service to mankind has placed her in the first rank of all women, has been glad to accord to Mrs. Eddy the place of "the nation's greatest woman." Here indeed is but to interpret the logic of events to add that ere the hour-glass of the century is run, Mary Baker Eddy will receive her rightful place in human history as the world's greatest woman.

In 1908 Mrs. Eddy founded The Christian Science Monitor, the world's only international daily newspaper, which with quiet power is shedding the light of honesty among earth's shadows, and with an eye single to truth is unraveling the skein of confusion in the affairs of men and nations. The purpose of this paper, also, wonderfully epitomizes her own life purpose. Indeed, it was her purpose and is the purpose of the whole Christian Science movement, and it is this: "To injure no man, but to bless all mankind."

SEPARATION NECESSARY

Christian Science blesses mankind by showing the practical and only way to demonstrate harmonious being. Christian Science teaches that the salvation of mankind from evil and mortality consists in the separation in consciousness of the false material sense of God, man, and creation from the true sense of God and man as spiritual and eternal, dividing between Adam and Christ.

On page 261 of *Science and Health*, Mrs. Eddy says, "Hold thought steadfastly to the enduring, the good, and the true, and you will bring these into your experience proportionately to their occupancy of your thoughts." This admonition helps us to recognize the force of Jesus' great statement of the one way by which life and freedom are attainable when in twelve words he stated the law of God for man's complete salvation thus, "Ye shall know the Truth, and the Truth shall make you free."

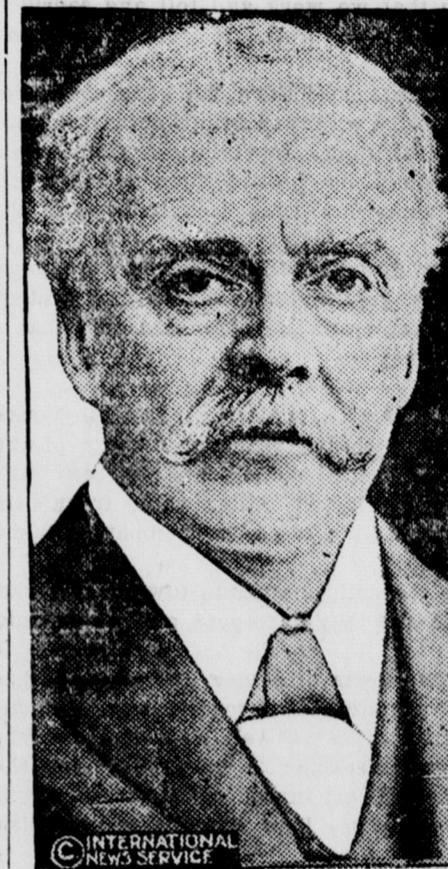

DEMOCRACY AND AUTOCRACY

Democracy is derived from two Greek words meaning rule and people, hence the rule of the people. All

government is primarily mental. Democracy is that government expressed through the consciousness of all or the larger part of the people. Autocracy is government by the will of one or a few. Democracy is the certain evidence of mankind's mental growth away from the domination of material force and human will, and his progression toward that true government which is found in the one altogether good Mind, the common intelligence, source and ruler of all.

Autocracy, whether it be found in national councils, religious or medical hierarchies, or in the thought of individuals, is but evil's claim to power. It is the carnal mind which is ever the enemy of God. Autocracy is the lie about God's government, for it is the rule of human will, recognizing no law but its own selfish desire. God's government is the rule of universal intelligence, impartial and just to all. The rule of human will violates the rights of conscience, stifles moral and spiritual growth, and confines within the prison walls of material sense the lives and thoughts of individuals, sects, and nations.

The goal toward which the world is progressing through its anguish and suffering is the one universal democracy, the theocratic democracy, wherein all men are governed by their common parent Mind, unvarying intelligence, and its law.—Adv.

Courtesy in the Home

If the question were put suddenly to you or to me, "Are you a polite and kindly person?" we should probably answer, "Why, yes," with a little sense of affront at the thought that we could possibly be considered anything else than polite and kindly.

And we probably are both—to the stranger and the casual acquaintance and the friend. But do we carry our civility into our own family circle?

We are not speaking of direct incivility and rudeness. That does not enter into the question. But is our family life based upon essential courtesy and kindness?

We are supposedly surrounded in our homes with the people whom we love best in the world. It is for them that we work and toil and sacrifice. Their well being is worth more to us than our own. If trouble or illness threatens them our day is darkened.

Yet is it not true that we often fail to accord them the little courtesies of everyday life which we would show to the stranger within or without our gates? Do we give them the few words of kindly appreciation which would mean so much to them? Do we not sometimes proffer them careless discouragement and criticism which may some day come back to us with the force of a blow?

Suppose we hold a little private conference with ourselves over these questions. Let us each—and this means you and me—carry our outdoor courtesies and thoughtfulness into the home—and we shall find out what a place of radiance and charm that home may be.

A little girl was taking a Western trip with her father, and they were seated in the observation car passing through the beautiful scenery of the Canadian Rockies. The child was engrossed in a story book, and paid such very casual attention to the wonderful view that he father would frequently say, "Look, Beatrice, look!" Finally, with a kind of resigned impatience, the little girl said, "But, father, I have looked!"

A great many people have exactly the child's attitude toward the war. They have sacrificed and they have given and they have paid, and why should they need to keep on?

These people do not realize that the effects of a war live after it, that we have to pass through a long vista of conditions and results brought about by the war. Demobilization and reconstruction as well as actual warfare are expensive processes, and it is up to Americans to continue paying the costs. Inflated war prices must decrease gradually. Income taxes will continue, and in the spring will come a Victory loan which patriotic spirit must meet as it did the Liberty loans.

The outlook is that we shall have to exercise patience and economy for some time to come. We cannot release ourselves from obligation by the plea, "But we have given!"

Now that the Red Cross auxiliaries are closing up everywhere will there be another era of bridge whist and embroidered doilies?

A captured German colonel said dolefully, "Nothing can resist the American troops." We always know that the American girls were irresistible—perhaps the boys learned it of them.

Maybe when President Wilson is again settled at the White House he and the Senate will hold a love feast—and then again maybe they won't.

It is a question which brings the greatest aggregate amount of joy to America—the day when a transport from France arrives or the day when the price of butter drops a cent a pound.

Premier Clemenceau says that President Wilson is "the most stubborn man he ever encountered." It will be recalled that the emblem of the Democratic party is a stubborn one, and that the emblem of the United States is as determined as it is powerful.

President Wilson's fourteen points evidently made a strong impression upon the fourteen nations that signed the league constitution.

All America is holding its breath until it shall find out the whereabouts of the Monroe doctrine.

If the Monroe doctrine has gone the United States has lost an excellent friend. And foreign nations will be only too ready to send flowers.

The principle of controlling the world by a League of Nations is like that of employing moral suasion in the education of children. Note that moral suasion works admirably except with bad boys.

Ex-President Taft is a prominent member of the League to Enforce Peace. Mr. Taft would be a most desirable member of any organization. Should disturbance arise within a committee, it would be effectively quelled by simply appointing Mr. Taft to sit on the committee.

We are reminded of the young man whose father told him that an infinite number of men had been ruined by "wine, women and song." Wishing to be on the safe side the son dutifully cut out the song.

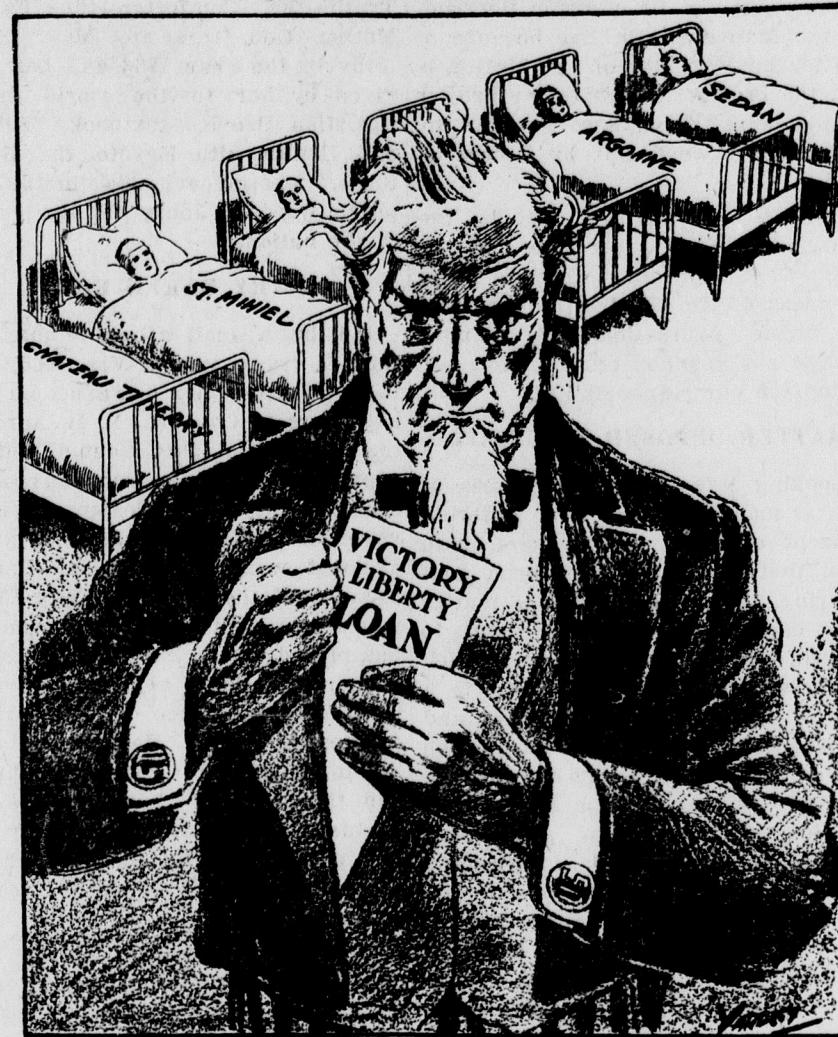

Now the government has cut out the wine, and as the army returns the women are busily engaged in cutting out each other.

What will we have left?

As the banners and placards come down the housewife exults in her opportunity to really wash the windows.

Who is going to raise the wheat crop this year—the government or the farmer?

SEND ME THE BILL

HELP YOURSELF

More than 150 years ago Benjamin Franklin wrote: "Keep your shop and it will keep you." The stamp of greatness is on Franklin's philosophy because it was not alone of his time; it holds for all time.

Our ways have changed a bit in the economic life of this republic which the great Franklin helped to build. No longer may every man be his own shopkeeper. Most of us help keep some other fellow's shop and a certain element among the assistant shopkeepers have become restless because they have no shop themselves and call themselves I. W. W. Bolsheviks, and other names.

The former Crown Prince of Germany says it is absurd to talk of shooting the Kaiser and himself. But the murder of thousands of women, helpless babes and non-combatant old men at the instigation of "me an' dad" was no joke to any but the German butchers.

Subscribe for The Enterprise.

Have you noticed that the young soldier just home from the army never sits down if he can help it? He argues with you towering up above you in a position of vantage, or he tells his adventures while striding up and down the room. It will be ruinous to the chair manufacturers if this keeps on. But we now understand for the first time why it is called a "standing army."

It is a singular circumstance that a young woman's feet seem naturally to be so much warmer than her shoulders. The proof of this is seen in the number of girls wearing heavy fur coats with thin silk stockings and pumps.

The length of a man's step is determined by the laws which control the swing of the pendulum; the length of a woman's by the tightness of her skirt.

Condensation is a virtue. But it becomes an absurdity when clothes for large women are described in an advertisement as "stylish stouts."

Now that it is not happening any more is the time to enjoy the war books and the war films.

PUBLIC WELFARE WORK

WOMEN HURT BY RUNAWAY HORSE

Under this heading The Enterprise will publish weekly articles furnished by the San Mateo Conference of Social Agencies, dealing with public welfare work.

(Contributed by San Mateo County Conference of Social Agencies.)

Annual Report of St. Anthony's Guild.

San Mateo, Dec. 31, 1918.

At the beginning of the year of 1918, St. Anthony's Guild had a membership of 116 and \$878.87 in the bank.

Thus equipped it entered its thirteenth year and held twenty-eight meetings, with an average attendance of ten.

The year was devoted to sewing for the poor and for the Christmas sale. Eighteen sofa cushions were made for Father Cavanaugh's canteen at the Presidio.

The autumn meetings were resumed September 3.

Balance brought forward....\$ 878.87

Dues and donations..... 401.04

Entertainment for the chap-

lain's fund of 62d Infantry. 500.00

Christmas sale 990.00

Interest in bank 19.56

..... \$2,789.47

Disbursements \$1,750.26

Cash on hand..... \$1,039.21

During the year the guild made 250 articles and bought to distribute 104 new articles, 30 pairs of shoes, 7 confirmation boys' suits, 3 confirmation dresses, 5 infants' sets, 1 bed, 2 mattresses, 1 pillow, 1 broom, 2 blankets and 3 comforts. Four hundred and fifty-eight partly worn garments and 79 pairs of shoes were distributed, also 23 pieces of furniture and 1 invalid's chair.

The sum of \$86.13 was paid for meat, \$33.85 for fruit and vegetables, \$230.40 for groceries, \$23.15 for coal, \$58 for house rent, \$44.10 for eggs, \$98.40 for nursing and care of the sick, \$103.60 for milk, \$60 for the board of an orphan, \$32.50 for hospital expenses, \$140 for funeral expenses. At Thanksgiving one and at Christmas twenty-five dinners and some toys were sent out.

There are now 113 members. Those who have not yet joined are urged to do so. The dues are but 25 cents a month. Meetings are held every Tuesday afternoon at 2 o'clock at the Knights of Columbus building on Baldwin avenue.

Mass is said for the members on the last Tuesday of each month.

Donations of partly worn garments are solicited.

EMILIE PARROTT,
President.
ANNIE J. CASEY,
Treasurer.

A band of gypsies visited South San Francisco Wednesday. They had been ordered out of Colma, but went in practically all of the stores here.

Your Dollar Will Produce More IF SPENT WITH US

There are several reasons why we can guarantee this.

FIRST—We buy for spot cash.

SECOND—We buy in large quantities.

THIRD—We have reduced expenses to a minimum.

FOURTH—We are satisfied with a REASONABLE profit.

If you think these reasons are sufficient, you are convinced that we CAN sell GOOD goods CHEAP.

If you will give us a trial we will convince you that we DO.

LOCAL HAPPENINGS TOLD IN BRIEF

Miss Grace Martin will not sail for Honolulu until the 4th of March, as the ship on which she was to have sailed has been put in drydock for repairs.

Dr. and Mrs. F. S. Dolley motored to Monterey over the holidays.

Born—February 17, to the wife of F. Sabin, a baby girl, christened Dorothy Leona Sabin.

Miss Anita Cohen spent Thursday in San Francisco.

Mrs. Hart and Mrs. Beebe of Earl Park, Ill., the aunts of J. H. Ditton, arrived Thursday evening at San Francisco for an indefinite visit to California. They are registered at the Clift Hotel.

Patrick Bowler has received his discharge from service and is again in South San Francisco.

CHURCH NOTICE.

On Sunday, March 2, at 11 a. m., the Rev. Daniel Stevens will preach at St. Paul's Methodist Episcopal Church. Theme, "The Service Flag of God."

At 7:30 p. m. Dr. George White, the district superintendent, will preach.

Bible school at 10 a. m. Lesson subject, "The Report of the Spies."

The Epworth League will meet at 6:30 p. m. Topic for discussion, "Passing the Surgeon's Test for Christian Service."

All are cordially invited to attend these services.

CHRISTIAN SCIENCE SOCIETY SERVICES

The Christian Science Society of South San Francisco will hold services Sunday morning at 11 o'clock, Sunday school at 9:45 a. m. and services Wednesday evening at 8 o'clock in Fraternal Hall, Grand avenue, near Maple. Subject of lesson sermon, "Christ Jesus."

Among the terrors of peace may be mentioned the possibility that the former Crown Prince of Germany may come to the United States. He is quoted as saying: "I would love to go to the United States if the entente do not shoot me." Unfortunately, there is danger that he won't be shot.

Ingenious and Becoming Frocks

The endless ingenuity of the designers of apparel, keeps alive and alert our interest in the styles. Even the becomingness and the elegance of the tunic would not have saved it from becoming tiresome, if it were not that it is always reappearing with some lately discovered, novel development. It is this spice of cleverness which we admire—and sometimes, envy—in the woman who is able to buy it in her clothes.

Here is a new afternoon frock which might be of silk jersey, or tricot or crepe de chine, or any other clinging fabric, which has joined to a long, straight blouse the beloved tunic, by the simple means of hemstitching them together. Thus we have the new and youthful long waist in company with the much-admired tunic. And there is a folded "girdle" about the blouse to vary the straight up-and-down line which it breaks. There is a wide shawl collar, high at the back, that appears to do wonders as a neck finish, which opens over the blouse and discovers a wholly unexpected diagonal line across the front. This is outlined with a band of ornamental braiding that is extended to the hemstitching.

The deep and ample cuffs with a row of small ball buttons set close together on them, merit special praise.

The underskirt is plain, moderately narrow and finished with a wide hem. This frock will prove a good choice for the unpretentious weddings that are due to arrive at Easter. It is practical as well as beautiful and will serve for the bridesmaids, or for bride when the wedding is to be simple. There are some lovely tones in the new spring colors, as seagull gray, champagne, coral, Alpine blue and orchid tints. But this model, in darker shades, will make an afternoon and dinner frock that will prove a joy to its possessor.

Julie Bottomley

Save String.

What becomes of all the little bits of string and twine that come around the small parcels that you bring home, also those of larger ones that are sent to you? There are many folks who save them, but there are others who do not. For the latter it would be nice to make a bag with drawing string and hang always in the kitchen or pantry or some nearby place. Roll the small ends in one ball and the long ones in another and keep in a box hanging in the pantry with a lid that shuts itself. A salt box is all right.

PIONEER AT REST.

Funeral services were held in Pescadero Saturday last for John McCormick, a pioneer resident of the coastside and at one time supervisor from the Fifth Township, who died last Thursday at the age of 81 years. Interment took place in the Pescadero cemetery.

PTOMAINE CAUSES DEATH.

Ptomaine poisoning, caused by eating canned herring Wednesday morning, resulted in the death of Mrs. Sarah A. Hurst of 247 Ellsworth avenue, San Mateo, wife of H. J. Hurst, a gardener employed at the MacRorie McLaren nurseries.

Monday night Mrs. Hurst opened a can of herring, which she ate for her dinner. Her husband did not partake of the fish. Tuesday morning Mrs. Hurst was taken violently ill, and Dr. George W. Sevenan was called. He immediately diagnosed the case as ptomaine poisoning. Despite his heroic efforts to save the woman's life, she passed away at 6 o'clock Wednesday morning.

MAN WHO BEAT BOY FINED.

Albert Storzer, innkeeper of Millbrae, arrested last week by Constable S. A. Landini of Daly City on a charge of assault with intent to commit murder, pleaded guilty to the charge in Justice of the Peace Ellis C. Johnson's court in Daly City on Saturday and was fined \$50, which he paid.

The charge against Storzer was preferred by Rene Charrot, 19, who said that Storzer lured him to his saloon, where his wife and he beat him, in the false belief that Charrot had been contributing to the delinquency of their daughter.

MILTON GREEN DEAD.

Attorney Milton J. Green, formerly United States Referee in Bankruptcy in San Francisco and for many years a resident of San Mateo, died in San Francisco Tuesday following an illness of several months. He was a native of Oroville, 60 years of age. The funeral services were held Thursday afternoon at 2 o'clock at the chapel of Ganter & Maison on Valencia street, San Francisco, and the interment was private.

Since resigning from his position of Referee in Bankruptcy, Judge Green had been practicing law in San Francisco. He is survived by five sons, Kenneth M., Alison, Thornton L., Eliot D. and Robert L. Green. The latter has been attending the San Mateo Union High School.

REICHARDT WILL ESTABLISH DUCK FARM AT RUNNEMEDE

Otto Reichardt, proprietor of the duck farm at Baden, has selected fifteen acres of land in the Runnymede poultry colony and will establish a duck farm there. It is also reported that he has reserved the right to buy thirty-one acres of land adjoining the bay front which will afford ample ground for growing green feed and expanding the business.

Reichardt is known as one of the most successful duck raisers in the county and the announcement that he intends to start a farm at Runnymede will be received with interest.

MARRIAGE LICENSES.

The following marriage licenses have been issued in the office of County Clerk Elizabeth M. Nash during the past week:

Herbert G. Anderson, 41, and Anna Bell Nihil, 36, both of San Francisco. Earl Ellis, 32, and Elsie Currier, 28, both of San Francisco.

Frank B. Meyer, 33, and Mabel E. Wilson, 32, both of San Francisco.

Bert Nash, 50, and Frances Hall Harden, 37, both of San Francisco.

David E. Garner, 40, Oakland, and Nannie Davies, 32, Los Angeles.

Joseph C. Cancilla, 22, and Mary Sanseri, 18, both of San Jose.

August G. Besso, 30, and Carrie Besso, 23, both of Reno, Nevada.

LYNCH EXPLAINS DELAY IN LIBERTY BOND DELIVERIES

Failure of installment subscribers to the last Liberty bond issue to receive their bonds in many instances was explained this week by James K. Lynch, governor of the Federal Reserve Bank, Twelfth District, who said that the Government Printing Office had not yet completed the deliveries of the \$50 and \$100 bonds.

"We have heard complaints from employees who made their subscription through a corporation and from men in the army, who have not received their bonds of the smaller denominations even after the final payment was made," Lynch said.

"But, with the single exception of the Bank of Santa Rosa that was otherwise involved, I do not believe criticism should attach to the corporation through which the purchases of these small bonds were made. The entire difficulty has been in getting the bonds fast enough from the printing office."

Lynch says that even now this district is short of \$100 and \$50 bonds for delivery, and that distribution through the district had to be pro-rated.

BURLINGAME BOY IS COMMENDED BY DANIELS

Alfred J. Guillemand of Burlingame is among forty-one members of the gun crew and ammunition party of the American tanker Frank H. Buck who have been commended by Secretary of the Navy Daniels "for their coolness while on duty" during an engagement with an enemy submarine last September 1. Guillemand's name is mentioned in an official dispatch from Washington.

The navy department said that during the engagement, lasting half an hour, more than thirty shots were fired; that the twenty-eighth shot was a probable hit and the twenty-ninth a positive one, as the U-boat suddenly stopped firing and disappeared after her bow had risen high in the air.

Guillemand is the son of U. J. A. Guillemand, who lives at 739 Laurel avenue in Burlingame.

SOUTH SAN FRANCISCAN HELD UP ON WEDNESDAY

Alva C. Lynch, living at the Golden Eagle Hotel here, reported to the San Francisco police that early Wednesday day he was held up by two men at the point of a gun and robbed of \$25 worth of War Savings Stamps, a pay check for \$69 and a meal ticket.

The hold up took place at Fifth and Jessie streets, San Francisco.

FARMERS IN BEST FINANCIAL SHAPE OF RECENT YEARS

Smooth Transition of Agriculture to Peace Basis Predicted by Federal Reserve Board

American farmers are in better financial shape than they have been for years, according to a recent report of the Federal Reserve Board at Washington, which also predicts a smooth transition of agriculture and industry from a war to a peace basis. The board's review of economic conditions throughout the country is based on detailed reports made to it by the governors of the twelve federal reserve banks.

"The farmer is said to be in the best financial shape for many years," the review says. "In the South he is able to hold his cotton for better prices and is marketing his output conservatively."

"Excellent crop prospects are reported from the wheat states of the West and from California. On the Pacific Coast the prospects for excellent crops are exceedingly bright."

"Victory year" crops, according to another government report, added \$17,000,000,000 to our wealth. The principal contributions were:

Corn—2,582,814,000 bushels, \$3,528,313,000.

Wheat—917,100,000 bushels, \$1,874,623,000.

Oats—1,538,359,000 bushels, \$1,092,423,000.

Barley—256,375,000 bushels, \$235,269,000.

Rye—89,103,000 bushels, \$134,947,000.

Potatoes—397,676,000 bushels, \$475,731,000.

Hay—75,459,000 tons, \$1,522,473,000.

Tobacco—1,340,019,000 pounds, \$374,318,000.

Apples—173,632,000 barrels, \$229,990,000.

As a result of the flourishing condition of the farmer in general the government expects him to take a large block of Victory Liberty Loan Bonds in April.

BORN OF WAR

It is difficult yet to value accurately or in some instances to perceive all the war has brought to our national life or pruned from it. The things we think little now may appear to posterity the greatest. The Thrift Stamp idea seems to be one of these. Originated as a war emergency measure, it has taken hold; has appealed to the common sense of America, and may yet shape the destiny of the nation.

It is patent, now that the war is over, that the Thrift Stamp has come to stay. If we get nothing else out of the war but the habit of saving, which begets the corollary simple living, we will have reaped the full fruit of the war. For a thrifty democracy is a firm democracy, a potent democracy, a democracy strong enough to preserve itself.

A man who saves is a better citizen than the man who does not save. He becomes a stockholder in his government and he is jealous for the welfare of that government in war and peace. In war he will fight for it with his life. In peace he will protect it from those who would tear down.

As America saves from this day on so shall she grow in benign power and in the eyes of mankind. "A bank account for every American citizen" should be one of our national slogans.

The Thrift and War Savings Stamp idea is freighted with a mighty change for the better in our national life.

The Thrift Stamp is backed by the United States government. Without doubt it is the greatest investment ever offered and it is in such a form that every American, big and little, can take advantage of it.

Besides the method given for tinting crepe georgette and thin silks by means of coloring matter dissolved in water, there is the method of tinting with gasoline and tube paints. By these means a greater variety of tints and colors are possible and one may match shades. The blouse or veil of fabric to be tinted must first be washed, if it is soiled, or cleaned in gasoline, and dried. If washed, make suds of warm water and a pure white soap, and dip the garment or material in it, squeezing it gently through the hands and lifting it up and down in the suds. When clean, rinse it in two or three waters and fold in a towel. Do not wring with the hands, but put through a wringer.

For tinting laces, georgette crepe, chiffon or light silk with gasoline, one may produce any color or tint by securing the necessary tube paints, and they must be fresh. To ascertain that they are, remove the top of each tube and see that the paint flows out easily when the tube is squeezed. Manufacturers of paints provide many colors and shades ready to use, so that it is not often necessary to mix colors.

A large china wash bowl and a tin pan are needed for this tinting process. When used, the bowl must be perfectly clean and absolutely dry. Gasoline for tinting must be left in an air-tight can so that it will not evaporate, and a small bristle brush must be kept clean and dry, ready for use. Tinting should be done in the open air or near an open window, as the fumes from gasoline often cause headache and are highly inflammable. Never do tinting in a room with a fire or gas jet. Always keep the tops of tubes screwed down, so that the paint will not become hard.

Wipe the bowl or pan to be used with a clean, dry cloth and squeeze into it a little of the color required. Pour over this a little gasoline and use the brush to mix the paint and gasoline, moving it about until the paint is thoroughly dissolved. Dip into this a small piece of the goods to be tinted. If the color proves too dark, add more gasoline; if too light add more paint. Sufficient gasoline must be poured in the bowl to cover the material to be tinted.

Prussian blue, burnt umber and black are very strong paints and very little of them is required to make a light tone. To make different colors one must mix the paints, unless the tone required can be bought ready mixed. The following paints will produce many colors when properly mixed: Prussian blue, ivory black, silver white, king's yellow, burnt umber, sienna, Naples yellow, mauve, purple lake and geranium lake.

Red or geranium lake in gasoline will tint pink. Prussian blue will produce light blue. Black makes a gray shade; burnt umber makes tan. Several shades of brown may be produced by mixing white and brown. Purple lake makes lavender. Black may be mixed with green to deepen its tone, and white to lighten it. Red and yellow give an orange tone; blue and yellow produce green. White, lake and vermilion make flesh color. Yellow, white and a little Venetian make buff.

When the material has been tinted, squeeze it out of the gasoline and shake it in the open air. It will dry very quickly.

Julia Bottomly

With an immense oversupply of wheat in the world, we should hear less of the old statement that the world is not suffering from overproduction, but underconsumption. Bring down the price of bread and thus encourage double rations for everybody. Please pass the bread!

FRATERNAL DIRECTORY

Bay City Homestead, No. 5527, B. A. Y., meets every first and third Wednesday in the month. Mary F. Bohn, Foreman. Frank B. Turner, Correspondent.

Tippecanoe Tribe, No. 111, Impd. O. R. M., meets every Thursday evening at 8 o'clock in Fraternal Hall. Visiting brothers welcome. George Klessling Sr., Sachem. Daniel Hyland, Chief of Records.

South City Aerie, No. 1473, F. O. E., meets every Tuesday evening in Fraternal Hall, 8 o'clock. James Anderson, Worthy President. Daniel Hyland, Secretary. Visiting brothers welcome.

South City Lodge, No. 832, L. O. O. M., meets in Fraternal Hall every Thursday evening at 8 o'clock. Visiting brothers welcome. A. Convey, Dictator. Henry Veit, Secretary.

Catarrh Cannot Be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood in the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

Jack Pickford in Another "Tom Sawyer" Picture at the Royal

A tale of absorbing interest, known to nearly every one already, is to be the attraction at the Royal Theatre on Tuesday. This is "Huck and Tom," or, "The Further Adventures of Tom Sawyer," from Mark Twain's immortal book, "Tom Sawyer." Young Mr. Pickford appeared some time ago in "Tom Sawyer," and his success was so great that the producers decided to continue the production in a second five-reel picture, so great was the popularity of the

first, and so much material was left over from which to draw. Tom Sawyer, aided and abetted by the irrepressible Huck Finn, indulge in thrilling and humorous adventure, including witnessing a murder and being able to save a man's life by their testimony, as well as being marooned in a cave where they discover untold wealth that had been hidden there by robbers. The cast is especially good and the production was directed by William D. Taylor, who also directed "Tom Sawyer."

WHAT A MAN MIGHT SAY OF SOUTH SAN FRANCISCO ON RETURNING TO IT AFTER AN ABSENCE OF TWENTY YEARS.

In a review of the past, in the contemplation of the present and in the prospect of the future, the readers of The Enterprise may find interest in the impression made upon the mind of the returning visitor.

We may imagine him as asked by some old-timer: "Well, what do you think of our town?" He would reply: "It is surely some town." He might go on to say: "You have finely built cement streets and sidewalks, where once were mud roads; fine trees, where formerly the scrawny eucalyptus and the uncouth cypress gave but little promise of growth of future beauty; the few unsightly houses and ugly shops have given place to substantial, pleasant homes, and your bank is certainly a handsome building, and one hotel is pleasant looking structure. The school buildings and the library please the eye. Two of your churches show architectural taste and the third may at some time be improved."

Such comment on the general appearance of the town would be a fair comment. The returning observer would conclude, however, that there are just as many, if not more, saloons to the square foot as were to be found in the old days, and that the devil of drink evidently continues to be as beastly and destructive as ever, and that there are probably as many blighted homes and fuddled brains, as many lonely men who have no society or fellowship outside of the saloon, and as many unhappy women and neglected children as ever in the growing town—although it has a costly bank building and its industrial plants have a large payroll, of which the town boasts hugely.

The returning observer would note, moreover, that the town authorities have no sense of urban tidiness. Unsightly rubbish is visible everywhere, along the sides of the fine avenues named after trees of beauty and of grandeur, Orange, Acacia, Cypress, etc. The old and rusty can, the decaying branches, the broken dishes, the piles of uprooted weeds, decaying vegetation, rusted wire, remnants of worn-out furniture, pots and pans and junk heap produce, are "thick as leaves in Vallambrosa." One deep lot on the Avenue la Grande is a very Valley of Hinnom where "the worm dieth not and the fire is not quenched," for the worm is in the mind of the observer, and the fire is

VISITOR.

WHO SAYS IT?

Slogging through the mud of France,
Camping in the rain;
Hiking in a frozen trance
Down some German plain;
"Fall in!"—hear the sergeant yell,
Far from home and clover;
Tell me, who the bally hell
Said the war "was over?"

Chow for breakfast—slum for
noon—
Who says men are free
While the bugler's foolish tune
Pipes the reveille?
"Right dress!"—hear the sergeant
buzz
From Mainz across to Dover;
Tell me who the hell it wuz
Said the war "was over?"

Cleaning up a mass of wire,
Stained with clotted blood
Where the big trucks bog and mire
In the winter mud;
Full of filth and fleas and fuzz—
Cannoneer and drover,
Tell me who the fat-head wuz
Said the war "was over?"

—Grantland Rice.

Cable the Peace Conference

America's prestige is at stake in the coming Victory Liberty Loan. The eyes of the world are fixed upon us. The nations of the world are going to rate us on this last effort. It is right that they should judge us, not by what we do in the heat of the struggle, but by our condition after the fight.

One of the best guarantees of world peace for years to come would be the successful flotation of the Victory Liberty Loan for five or six billion dollars. Even a combination of powers inclined to start another war would hesitate in the face of such a display of tremendous national strength.

Every man who buys a Victory Liberty Bond next April, moreover, will be adding to the determination with which America speaks at the Peace Conference. There are undoubtedly going to be many moments during that Conference when every whit of the power of the United States will be needed to shape into actualities those ideals for which we entered the world struggle.

Let the cables carry into the Quai d'Orsay this message:

"America has oversubscribed her Fifth Liberty Loan by more than a billion dollars."

THINK STRAIGHT

This is a time for straight thinking. Make sure the other fellow is not talking drivel. Analyze his thought, don't follow it. He may be suffering with phraseologic hemorrhage. It is epidemic now-a-days like influenza and much more serious.

For instance in regard to the Victory Liberty Loan and these fellows who thumb their vests, frown wisely, and say "Let the banks do it. They are bursting with money." They are talking drivel. It sounds fine but it isn't good sense. Nor is it good economics, which amounts to the same thing.

If the government thought it was wise to "let the banks do it," the government would let them do it. There would be no Victory Liberty Loan in the popular sense. But the government knows better than to let the banks do it.

This is the period of reconstruction right now. It is a period of many possibilities economically. One possibility is industrial depression. One preventative of industrial depression is plenty of money at favorable rates of interest to stimulate private enterprise. That means our banks must not be clogged with government securities. It means that we can't afford to "let the banks do it." The people must do it—do it from their earnings, present and future.

Think straight.
Support the Victory Liberty Loan.

The butter market is said to be paralyzed. But it isn't half as much so as the housewife who has been paying from 60 to 80 cents for her supplies.

BURLINGAME GARAGE
Burlingame, Cal.

DO NOT PUT NEW WAR STAMPS ON OLD FOLDERS

Purchasers of 1919 War Savings Stamps should not place them on 1918 folders—technically known as War Savings Certificates—is the warning of Samuel Hubbard, director of War Savings for the Twelfth Federal Reserve District. If the 1918 certificate has blank spaces, just put the certificate away without filling it with 1919 stamps.

The same Thrift Stamps and Thrift Cards are used this year and when the Thrift Card holding sixteen stamps is filled it will be exchanged for the 1919 War Savings Stamp on payment of the additional cents which represent the difference between the price of the War Savings Stamp and \$4, the value of the sixteen Thrift Stamps.

Where there is any doubt Director Hubbard advises questioning the local secretary of the War Savings Society or the postmaster.

McSWEENEY HONORED BY STATE TAX COLLECTORS

Ambrose McSweeney, Tax Collector of San Mateo county, was appointed one of the five members of the legislative committee of the California County Tax Collectors' Association, which met in annual session at Sacramento.

HEAVY RAINFALL ADDS TO JOY OF FARMERS

San Mateo county was visited by another unusually heavy storm during Tuesday night and Wednesday morning. Redwood City received a good drenching, 1.23 inches of rain falling between midnight and 8 a. m. All the creeks in the county were running full and millions of gallons of water flowed into the Spring Valley lakes. The farmers are all rejoicing as a result of the storm, the rain assuring them of bountiful harvests the coming season.

Two women in the bus sustained season, according to the rain gauge in the office of A. D. Walsh on Broadway, is now 17.30 inches. Last year, up to the same period, the precipitation was only 3.80 inches.

IT'S THE "LAST"

The last the shoe is built on and the last-ing quality of the shoe itself. These are the two great points in a shoe. These shoes have the right LAST.

Infants' Shoes, soft soles..... 25c to 75c
Infants' Shoes, no heels..... \$1.00 to \$2.00
